FEEL THE PASSION
FOR SUPERIOR SAUNA EXPERIENCE

EOS is characterized by a perfect interaction of extensive know-how and a passion for design, performance and safety.

The development process of each product is our top priority. All the EOS prototypes go through extensive tests and measurements. All products are manufactured by competent and highly motivated specialists using the highest quality materials.

The EOS product portfolio contains trendsetting high-quality electric sauna heaters and corresponding sauna controls for private and commercial sauna facilities. We also offer infrared systems, steam room equipment and a wide range of accessories. For operation in event saunas with maximum power requirements and wherever gas-powered, high-quality sauna technology is required – you will find our KUSATEK products here, which can be individually designed for every application.

EOS

EOS Zeus S | floor-standing

Luxury class sauna heater with the distinctive round design. Suitable for domestic and commercial use.

Ideal for compact or mid-sized saunas.

The highlight of Zeus S is the unique laser-cut solid steel housing with approx. 25-30 kg rock store. The optionally available matching design round shape protective rail in 360° or 270° sets the crowning touch to the spectacular design of this model.

Finish - red-brown powder coating in „rusty" design. Optionally available in anthracite and black.

Rock store fits up to 25-30 kg stones.

Safety guard rail - optionally available (rail and mounting brackets to be ordered separately).

Power supply: 400 V 3N ~

Dimensions: Ø 450 x 1000 mm (Ø680 with rail)

Flat rate charge for sauna stones 9,00 €.

Guard rail optional

FINNISH SAUNA HEATERS

EOS Saunadome II | floor-standing

Exclusive sauna heater in distinctive "tower" design with the rock store open on all sides.

Unique design angled front grill prevents even small rocks from falling out and allows water splashes directly on the side walls. Extra large rock store ensures high temperature stability and allows frequent water splashes.

Completely of stainless steel, corner posts in anthracite pearl effect finish. Brushed stainless steel top. Improved air convention system. With adjustable feet.

Rock store fits up to 100 kg stones.

Power supply: 400 V 3N ~
Dimensions HWD: 1000 x 410 x 410 mm

Outer shell: anthracite pearl effect / stainless steel

Flat rate charge for sauna stones 18,00 €.

EOS BlackRock | floor-standing

Sauna heater for dry Finnish sauna. Great for intensive commercial use.

Durable construction made of stainless steel with extra large side channels for stable air convection.

Available in two distinctive designs:

- **BlackRock Anthracite**
  High-contrast design with side panels with anthracite finish and corners made of polished stainless steel. Top cover of polished stainless steel.
- **BlackRock Black**
  Exclusive design with all sides and top with stylish matt black finish.

BlackRock looks the same on all sides, no typical rear side - ideal for installation in front of glass walls or for central position. Terminal box at the bottom, with connection at the rear.

Thanks to an optional vaporizer 3,0 kW, BlackRock can also be used as Bi-O version for humid sauna operation (see page 33 for details). Retrofitting possible on site.

Rock store fits approx. 40 kg stones.

Power supply: 400 V 3N ~
Dimensions HWD: 830 x 555 x 555 mm
Suitable cover protection rail: type 4

Flat rate charge for sauna stones 9,00 €.

EOS

EOS Goliath / Goliath HD | floor-standing, heavy-duty

High-performance sauna heater for dry Finnish sauna. Modern straight-lined design, anthracite pearl effect finish, brushed stainless steel top.

EOS Goliath HD – "heavy-duty" version with internal wiring as massive copper rails. Copper rails as inner wiring make this high-performance heater perfectly suitable for saunas with particulary intensive commercial use.

Durable triple shell wall construction, completely made of stainless steel. Extra large rock store with 75 kg volume. Heating elements without contact with stones, replacement of elements without removal of stones possible.

Rock store fits approx. 75 kg stones.

Power supply: 400 V 3N ~

Dimensions HWD: 830 x 960 x 470 mm

Outer shell: Anthracite pearl effect finish

Suitable cover protection guard: type 5

Flat rate charge for sauna stones 13,50 €.

EOS Herkules XL S50 | floor-standing

EOS Herkules XL S50 models have a unique design featuring an innovative construction with two separate rock stores.

Two 25 kg large rock stores provide a perfect balance between strong air convection and optimal heat storage capacity. This ensures an optimized air convection and allows to make water splashes alternately on the left or on the right side for more steam and more sauna enjoyment.

Floor-standing sauna heater. Thanks to the stretched design and the flat rear wall with recessed terminal boxes, EOS Herkules XL S50 may be placed in front of glass panels.

Also available with high-quality matt black finish.

Power supply: 400 V 3N ~

Dimensions HWD: 750 x 750 x 385 mm

Suitable cover protection rail: type 3

EOS Mega HD | floor-standing, heavy-duty

Terminal box of EOS Mega HD with the internal wiring as massive copper rail

Sauna heater for very large sauna cabins up to 160 m³. For dry Finnish sauna type.

Specially designed for intensive commercial operation in event sauna cabins, e.g. with regular water splash events.

EOS Mega HD – "heavy-duty" version with internal wiring as massive copper rails. Copper rails as inner wiring make this high-performance heater perfectly suitable for saunas with particulary intensive commercial use.

Rock store with approx. 120 kg volume is fully separated from heating elements. Unique V-shape profiles in two layers serve as the rock store bottom and ensure effective water evaporation and improved air flow.

Durable stainless steel construction. Anthracite pearl effect finish. Uniform appearance on all sides – no typical "rear" side, ideal for central placement.

Rock store fits approx. 120 kg stones.

Power supply: 400 V 3N ~ (4 inputs)
Dimensions (HWD): 1000 x 1200 x 800 mm
Outer shell: anthracite pearl effect finish

EOS

EOS 46.U / 46.U XL | behind-the-bench sauna heater

46.U XL

46.U

Notice: 46.U XL models require an additional overheating limiter fuse.
94 5732 for EmoTec/EmoStyle/EmoTouch series.
94 6779 for Econ series.

Sauna heater for concealed behind-the-bench installation. For dry Finnish sauna operation.

Suitable for commercial use.

Available in 2 versions: 46.U with 6-12 kW and 46.U XL with 15-18 kW power.

Special extra slim construction for space-saving hidden installation. Only 22 cm depth required for installation!

Saves valuable place and increases safety in use thanks to the hidden installation.

Very robust and reliable. Inner and outer shell of stainless steel. Dust and water collecting tray at the bottom. Rock store with water distribution gutter across the entire heater width. Rock store fits 15 kg stones (46.U) or 20 kg stones (46.U XL).

Delivery scope includes:

- Water splash funnel with 1 m hose
- Cover protection safety grill:
  46.U - 1200 mm, 46.U XL - 1600 mm.

Flat rate charge for sauna stones 4,50 €.

EVENT SAUNA HEATERS

EOS Water mill sauna with Stone S60 heater | floor-standing

Themed sauna or a powerful water splash – the exclusive EOS Water mill Sauna heater will be a spectacular attraction and a "piece of action" in your sauna. The wheel rotates slowly anti-clockwise in the background.

Upon a manual or an automatic signal it starts to rotate in the reverse direction and pours the water several times into the cascade directly over the heater, which creates a series of powerful, impressive steam shocks.

NOTICE: Control unit for sauna heater is not included and should be ordered separately

Flat rate charge for sauna stones 13,50 €.

Power	Item no.	Price € no VAT
9,0 kW	94 5294	16.902,00
12,0 kW	94 5295	16.990,00
15,0 kW	94 5296	17.080,00

Power supply: 400 V 3N ~

Dimensions HWD: 850 x 510 x 530 mm
Overall dimensions: 1500 x 800 x 910 mm

Design: Stone S60 sauna heater with soapstone panels on the front side. Watermill wheel with anthracite finish and stainless steel scoops.

EOS Watermill sauna set with 34.GM heater | floor-standing

Spectacular Watermill system for themed sauna. The Watermill sauna allows an automated water infusion at preselected intervals. The wheel continuously rotates anti-clockwise, at pre-set intervals it rotates clockwise and delivers water on the cascade over the heater for an impressive steam-shock effect.

Set consists of the Watermill wheel with drive and control mechanism (with auto-filling system) and a 34.GM commercial heater with massive granite front panel (requires separate sauna control unit).

Includes automatic water refilling device FWA01. Permanent water supply required.

34.GM heater is available in two sizes:
Size 1   18 kW, rock store volume ~30 kg.
Size 2 27 - 36 kW, rock store volume ~45 kg.

NOTICE: Control unit for sauna heater is not included and should be ordered separately

Flat rate charge for 30 / 45 kg sauna stones 9,00 €.

Power	Item no.	Price € no VAT

36,0 kW	94 6388	26.762,00

Power supply: 400 V 3N ~

Dimensions HWD: 950 x 750 x 530 mm (size 1)
Dimensions HWD: 950 x 1000 x 530 mm (size 2)
Overall dimensions: 1700 x 1200 x 980 mm

Design: 34.GM sauna heater with granite plate on the front side. Watermill wheel with anthracite finish and stainless steel scoops.

EOS Watermill sauna set with Goliath heater | floor-standing

Watermill system for themed saunas.

As described above but with the Goliath sauna heater (see page 13 for details).

Includes automatic water refilling device FWA01. Permanent water supply required. Stylish guard rail crafted of solid Abachi can be added as an option to complement the heater design (see page 15 for details).

Rock store fits approx. 75 kg stones.

NOTICE: Control unit for sauna heater is not included and should be ordered separately

Flat rate charge for sauna stones 13,50 €.

Power supply: 400 V 3N ~

Dimensions HWD: 825 x 960 x 470 mm
Overall dimensions: 1700 x 1200 x 980 mm

Design: heater - anthracite finish

Watermill wheel in anthracite pearl effect, stainless steel scoops.

EOSphere | floor-standing

EOSphere – the one-of-a-kind ultra-luxury event-sauna heater with the unique plunging steam-shock effect for commercial sauna cabins.

Impressive design with a moving rock store and an underlying illuminated water tank makes the EOSphere a highlight in every sauna.

- Spectacular steam-shock effect with accompanying colour and light effects thanks to the innovative plunging function: The separate rock store heats the stones and then plunges down into the underlying water tank, accompanied by the specially coordinated light effects with colour changes from red to blue.
- Fully automatic function with adjustable time intervals and dwell time of the rock store in the water tank. Manual or automatic start.
- Finest quality hand-selected materials, carefully crafted down to the last detail. High-contrast design of polished stainless steel and powder-coated components with anthracite pearl effect.
- Luxury and exclusivity - no mass production, each system is individually handcrafted to order. Made in Germany quality from EOS.
- 45 kg stones included in delivery.

Notice: The heat output of the EOSphere alone is not sufficient for a sauna and usually requires an additional heating system.

EVENT SAUNA HEATERS

Gas-powered sauna heater-systems from KUSATEK:

stand for environmental compatibility and longevity.

As the market leader and specialist in the field of gas-powered sauna heater-systems, we are your competent contact from advice in planning, design, installation, as well as in annual maintenance.

With more than 25 years of experience and our own innovation department, we manufacture efficient sauna heaters as standard and individual solutions. Our special focus is on high-quality and robust sauna technology which is economical to use and extremely durable. Our DVGW-certified gas-powered sauna heater-systems have a power range from 10 to 120 kW and are optionally expandable through the combination of several heater entities. There are no limits to the performance and size of the sauna heater.

In 2019 KUSATEK realizes the 14-meter-long gas-powered sauna heater – the only one in the world so far.

MADE IN GERMANY

KUSATEK
powered by EOS

DVGW

YOUR ADVANTAGES:

• **Sustainable and low-maintenance**
  due to durable and robust construction.

• **Efficient and effective with additional benefits**
  Expandable with exhaust heat exchanger (4.5 kW) for energy recovery for e.g. water boilers (for showers, floor heating etc.).
  By multi-cabin solutions - distribution of recovered energy.

• **Durable**
  The operation equipment is not placed inside sauna cabin and therefore it is not subject to increased wear.

• **Retrofitting possible**
  from electric sauna heaters to gas-powered sauna heaters, with regards to the individual situation.

• **Improves afterheating and operating costs**
  Unique heat storage capacity thanks to very large volume of stones per heater in the respective performance class.
  The larger the area of your sauna or spa complex, the better your investment results.

• **As individual as your operation**
  Individual settings, programming the individual weekly operating time is possible.

• **Attractive financing models**
  Contact us for more information.

We offer attractive financing models.
We would be happy to advise you on the various options for operating your sauna cost-efficiently.

**Further information and references can be found at unter:**

EOS

KUSATEK Agon 2 | Gas-powered sauna heater-system

With the Agon 2 you will obtain the most compact gas-powered sauna heater of its class, for private and commercial use. The 50 kg stone volume is an ideal prerequisite for a unique sauna climate and steam-shock experience.

- Robust, durable construction made of stainless steel.
- Contemporary cubism-style design.
- Low operating costs.
- Suitable for natural, propane and butane gas, 10 kW burners
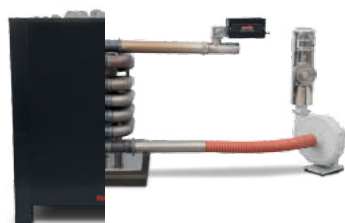

PRICE UPON REQUEST

KUSATEK Kusatherm | Gas-powered sauna heater-system

Unique design and performance – the powerhouse among its peers. Ideal for intensive commercial operation. Very economical and durable thanks to the unique technical features and particularly robust construction. With the KUSATEK-system, in addition to a standard solution, individual special solutions can be realized for the most diverse installation situations.

- Power range from 10 to 120 kW, optionally expandable through the combination of several heater entities.
- Kusatherm-heater feature the largest heating surface in the respective category thanks to the unique double-pipe spiral.
- Particularly cost-efficient for large saunas.
- Individual special solutions can be realized.
- There are no limits to the performance and size of the sauna heater.
- Very large stone volume up to approx. 680 kg for perfect temperature stability.
- Suitable for natural, propane and butane gas, 10 to 30 kW per burner.

PRICE UPON REQUEST

KUSATEK K-Tec | Sauna control unit for gas-powered sauna heater-systems

Advanced sauna control unit for gas-powered sauna heaters with compact-sized control panel and a coloured TFT display and a separate relay box. Great for domestic and commercial use. Innovative jog-dial switch allows quick and simple access to all functions.

- Control of up to 8 burners and the corresponding fans.
- Evaluating burner malfunctions (up to 4 inputs).
- Control of vaporizer or automatic water splash for humidification.
- Digital temperature control, 30 - 125 ˚C range.
- Connection for heater, bench, and humidity sensor.
- Additional control features through optional extensions: coloured light control for LED, music control, ECO / HOT function, remote start and operation.

PRICE UPON REQUEST

Sauna technology for a mobile sauna solution

From now on, you can enjoy a sauna session from almost anywhere independently from any external power supply – create a place of relaxation with a mobile sauna, whether in your own garden or somewhere in the countryside.

With the gas-powered sauna heater-system from KUSATEK, you can enjoy your sauna completely independently. The perfect combination for this is the KUSATEK AGON II and the K-TEC control unit.

We would be happy to advise you on the various options.

BI-O SAUNA HEATERS

Note for sauna heaters with vaporizer:

Our vaporizer systems have been designed for use with EOS sauna control units and require appropriate maintenance. Contact your water supply company and ask about the hardness level of your water. By hardness level I (0-8.4° German hardness level), the unit generally works without any problems and only has to be de-scaled occasionally if necessary. If your hardness level is in the range of II - III, the vaporizer must be de-scaled regularly (depending on the hardness level). Use soft water if possible, clean the vaporizer regularly. Please also observe that, according to the currently valid regulations (DIN EN 60335-1 / DIN EN 60335-2-53), during sauna operation with humidity the maximum permitted temperature must be in certain relation to the pre-set air humidity; this is automatically ensured by all EOS sauna control units.

Bi-O type sauna heaters should be used with the appropriate EOS control units designed for humid operation.

Important: Do not add any sauna essences or other additives into the water tank!

Model 1

Model 2

Model 1

Model 2
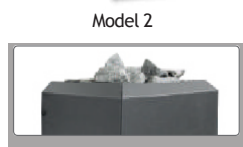

Optional feet

EOS Bi-O Picco W | wall-mounting

Sauna heater with built-in vaporizer for small saunas up to approx. 4,5 m^3. Allows flexible sauna climate, from dry Finnish sauna to mild and humid bath.

Very compact and space-saving – only 21,5 cm depth.

EOS Bi-O Max | floor-standing

Sauna heater with an integrated vaporizer. For domestic and commercial use.

Timeless, elegant design, die-cast aluminium top and front panel cover, anthracite pearl effect finish.

Completely in stainless steel. Extra-large rock store with 60 kg volume for powerful water splashes. No contact between stones and heating elements. Large side channels ensure optimal air convection for fast heat up time.

Allows flexible climate settings with humidity operation. Vaporizer right-hand side, with holder for essences. Dry-run protection with acoustic alarm. Water level indication at the front panel. 8 l water tank, manual filling. Very service-friendly design.

Rock store fits approx. 60 kg stones.

Power supply: 400 V 3N ~
Dimensions HWD: 925 x 500 x 500 mm.
Outer shell: Anthracite pearl effect finish
Suitable cover protection rail: type 4

BI-O SAUNA HEATERS

BI-O SAUNA HEATERS

EOS Herkules S25 Vapor | floor-standing

Exclusive luxury class sauna heater for private and commercial saunas.

With built-in 2 kW vaporizer (manual refilling) which allows to create various climate forms, from hot and dry to mild and humid. An elegant stainless steel holder for essences allows to turn your sauna to a herbal bath or fill it with pleasant fragrances.

Side panels in anthracite pearl effect finish and brushed stainless steel provide a distinctive, high contrast, straight-ligned design. Also available with high-quality matt black finish.

Rock store fits approx. 25 kg stones.

Power supply: 400 V 3N ~
Dimensions HWD: 750 x 450 x 385 mm
Suitable cover protection rail: type 1

EOS Herkules XL S50 Vapor | floor-standing

EOS Herkules XL S50 models have a unique design featuring an innovative construction with two separate rock stores.

With built-in vaporizer located right between the rock stores which provides this heater its unique appearance. An elegant cup holder for essences or herbs perfectly complements the design and enhances the possibilities.

Two 25 kg large rock stores provide a perfect balance between strong air convection and optimal heat storage capacity. This ensures an optimized air convection and allows to make water splashes alternately on the left or on the right side for more steam and more sauna enjoyment.

Also available with high-quality matt black finish.

Power supply: 400 V 3N ~
Dimensions HWD: 750 x 750 x 385 mm
Suitable cover protection rail: type 3

EXTERNAL VAPORIZER

EOS Invisio vaporizer

External vaporizer for EOS Invisio sauna heaters - turns every Invisio sauna heater into a "Bi-O" version for a flexible sauna climate from hot and dry to mild and humid.

The vaporizer may be mounted on the left and on the right hand side, and is available with 2.000 W and 3.000 W power.

The water tank is made of high-grade stainless steel and holds approx. 12 l water. Includes stainless steel pipe with steam outlet at the top to provide the steam exit along the top edge of the screen wall.

With dry-run and overheating protection with acoustic alarm.

For automatic water filling an optionally available FWA01 Compact top-up device is required!

Thanks to the twin nipple it is possible to connect the FWA01 top-up device and the drain valve at the same time.

Suits Invisio-Mini, Invisio-Midi and Invisio XL heaters.

Picture shows installation example of the vaporizer on an Invisio XL anthracite model.

The sauna heater is not included!

Power supply: 230V 1N ~
Vaporizer: 2,0 kW and 3,0 kW
Volume: up to 12 l.

EOS BlackRock vaporizer

External vaporizer for EOS BlackRock sauna heaters - turns every BlackRock sauna heater into a "Bi-O" version for a flexible sauna climate from hot and dry to mild and humid.

Durable stainless steel water tank with manual drain, 10 l tank volume, 3,0 kW power.

The vaporizer is only intended for use for humidifying sauna cabins, in connection with the EOS BlackRock sauna heater and a corresponding control unit.

Very slim design - only 10,5 cm depth. The vaporizer can be mounted on any side of the heater. Retrofitting possible on site.

The sauna heater is not included!

ECON SAUNA CONTROL UNITS (FINNISH)

EOS Econ D2 | for dry Finnish sauna

Electronic control unit for dry (Finnish) sauna. Universal model with an excellent price/value ratio. Suitable for home and commercial use.

Modern, slim housing for surface or semi-recessed mounting. Only 67 mm housing depth. Cable connections at the rear.

Extra-large, multi-line LCD display with menu navigation in 12 languages, all parameters at a glance. With 24 h single-event timer or recurring switching timer, control range 30 °C - 115 °C, clock, output for cabin light 230V, remaining heating time display, heating time limitation up to 6 h or 12 h (for commercial use). 4 user profiles. With keypad lock (child lock). Safety temperature limitation 139 °C. Holiday home and holiday park modes.

Switching power 9 kW, extendable for connection of more powerful heaters.

Inc. temperature sensor with 2 m cable.

Item no.	Price € no VAT
94 6138	740,00

Power supply: 400 V 3N ~ 50 Hz
Dimensions HWD :220 x 250 x 67 mm
Installation: surface or semi-recessed
Colour: white
Power output: max. 9 kW, extendable with LSG devices.

EOS Econ D3 | for dry Finnish sauna

Electronic control unit for dry (Finnish) sauna. For commercial sauna cabins.

As Econ D2 model, but additionally with:
- Heating time with unlimited mode (supervised commercial operation).
- Connection of the 2nd temperature sensor possible (optional Accessories, see page 38).

Inc. temperature sensor with 2 m cable.

Item no.	Price € no VAT
94 6140	828,00

Colour: white
Power output: max. 9 kW, extendable with LSG devices.

ECON SAUNA CONTROL UNITS (BI-O)

EOS

EOS Econ H2 | for dry & humid sauna

Electronic control unit for dry and humid sauna operation (for heaters with vaporizer).

As the Econ D2 model but with the additional humidity control and output for vaporizer. For all EOS Bi-O heaters up to 9 kW.

Control range: 30 °C - 70 °C (humid mode) and 30 °C - 115 °C (dry mode).

Humidity control on time basis, adjustable in 10 steps. With low water recognition, after-heating and sauna dry function after the humid operation.

Switching power 9 kW, may be extended for connection of more powerful heaters.

Inc. temperature sensor with 2 m cable.

Item no.	Price € no VAT
94 6139	938,00

Power supply: 400 V 3N ~ 50 Hz
Dimensions HWD :220 x 250 x 67 mm
Installation: surface or semi-recessed
Colour: white
Power output: max. 9 kW, extendable
Output vaporizer: up to 3 kW.

EOS Econ H3 | for dry & humid sauna

Electronic control unit for dry and humid sauna operation (for heaters with vaporizer). For commercial sauna cabins.

As Econ H2 model, but additionally with:
- optional humidity sensor and humidity control as per relative air humidity (by connected humidity sensor).
- optional 2nd temperature sensor (bench sensor).
- Unlimited heating time (for commercial use).

Switching power 9 kW, may be extended for connection of more powerful heaters. Inc. temperature sensor with 2 m cable. Humidity sensor optional (page 38)

Item no.	Price € no VAT
94 6141	1.064,00

94 7446	1.800,00

Temperature sensor | Compact series

Main temperature sensor (heater sensor), analogue type. Set includes temperature sensor, overheating limiter fuse, housing and cable set.
Suitable for all EOS Compact control units.
Notice: temperature sensor is already included by all sauna control units.

Colour	Item no.	Price € no VAT
Beige	94 7437	156,00
Anthracite	94 7438	156,00

Bench sensor | Compact series

Bench sensor includes housing and 6 m silicone cable.
Allows improved temperature control especially by large size saunas and cabins with complex layouts.
Suitable control units: EOS Compact DC / HC, D18 / H18

Colour	Item no.	Price € no VAT
Beige	94 7439	103,00
Anthracite	94 7440	103,00

Combi sensor | Compact series

Combi sensor includes housing and 4 m silicone cable.
Suitable control units: EOS Compact HC and H18

Colour	Item no.	Price € no VAT
Beige	94 7441	512,00
Anthracite	94 7442	512,00

EMOTEC SAUNA CONTROL UNITS

EOS EmoTec D | for dry Finnish sauna

Digital control system for domestic and commercial operation. For dry Finnish sauna.

Separate slim-size display panel (may be installed remotely at up to 100 m distance). Modern TFT colour display with menu navigation in 19 languages. Innovative operation via a jog-dial knob.

EmoTec D features a large scope of advanced functions:

- Temperature control range 30 °C - 115 °C
- Dimmable cabin light output 230V, automatic detection of inductive and capacitive loads
- Output for ventilation fan 230V (3 speeds)
- 24 h pre-set timer and extended week timer (4 programs per day possible)
- Heating time limitation 6 h / 12 h / unlimited

- Display panel with screen saver and sleep mode
- Holiday home mode and display lock per pin code
- Pin code protected service level for setup and fine tuning
- Volt-free output
- Optional 2nd temperature sensor (bench sensor)
- Remote switching or remote control via optional modules
- Coloured light and sound control via optional modules
- Quick check for pre-set and real temperature in the sauna
- Display panel includes bottom housing for flush-mounting or surface-mounting installation, 5 m connection cable incl.
- Relay box and digital temperature sensor with 5 m cable incl.
- Firmware updates on site possible.

Display panel is available in three designs

Item no.	Price € no VAT
EOS EmoTec D anthracite / silver	
94 5559	1.490,00
EOS EmoTec D white / silver	
94 6053	1.490,00
EOS EmoTec D anthracite / black	
94 7256	1.490,00

Display panel HWD: 127 x 130 x 25 mm
Relay box HWD: 270 x 300 x 100 mm

Switching power 9 kW, extendable
Power supppy 400V 3N ~ 50 Hz

Accessories

Optional extra-long cables for display panel, sensors and extension modules - see pages 46 - 50.

EOS EmoTec H | for dry and humid sauna

Digital control unit for sauna, all functions as the EOS EmoTec D above but additionally with humidity control.

For all EOS Bi-O type sauna heaters.

Humidity control - either in proportional to time way (allows constant steam production per given time) or with an optional humidity sensor as per relative air humidity (allows exact humidity setting per rel. air humidity in %).

Output for vaporizers up to 3 kW. With water shortage detection.

Quick selection between dry sauna or humid sauna operation modes with a jog-dial.

Additional functions:

- After-heating (sauna dry program after humid mode)
- Adjustable after-heating temperature
- Adjustable after-heating extractor fan speed
- Adjustable after-heating time
- Adjustable grace time for refilling the water tank by low level
- Smart-Heat function heats up the sauna faster and prevents that the steam production starts while the sauna is not yet well heated

Optional display and sensor cables - see pages 46 - 50.

Display panel is available in three designs

EMOSTYLE SAUNA CONTROL UNITS

EOS EmoStyle D | for dry sauna

Luxury class digital control system for domestic and commercial operation. For dry Finnish sauna.

Exclusive glass front display panel, colour TFT display and capacitive buttons.

Available in white and black design.

Large scope of advanced functions:

- Temperature control range 30 - 115 ˚C
- Dimmable cabin light output 230V, automatic detection of inductive and capacitive loads
- Output for ventilation fan 230V (3 speeds)
- 24 h pre-set timer and extended week timer (4 programs per day possible)
- Heating time limitation 6 h / 12 h / unlimited
- Display panel with screen saver and sleep mode

CONTROL UNITS

EOS EmoStyle Hi | for dry and humid sauna

Luxury class digital sauna control unit.

As the EmoStyle H model but **with display panel suitable for installation inside sauna rooms**.

For all EOS Bi-O type sauna heaters.

Features a special design display panel with glass front, colour TFT display and a stylish wooden inlay cut of acer or walnut with capacitive buttons.

For display panel installation inside sauna rooms.

All functions as the EmoStyle D and H models.

Display panel available in four designs:

- White glass with acer inlay
- White glass with walnut inlay
- Black glass with acer inlay
- Black glass with walnut inlay

Optional extension modules and other accessories - see pages 46 - 50.

Power supply: 400 V 3N ~ 50 Hz

CONTROL UNITS

EOS EMOTOUCH 3 CONTROL UNIT

EOS EmoTouch 3 | control unit for sauna and for hammam

Touch screen control system for the highest demands - with fully redesigned graphic user interface and numerous new functions.

- Ideal both for domestic and commercial use.
- Exclusive rimless glass front display with the 7" capacitive colour touch screen display panel.
- Fully redesigned graphic user interface - now with the choice of various cabin designs (themes).
- New menu navigation - makes operation faster, easier and more intuitive.
- Allows multi-cabin control - can control up to 8 separate cabins (saunas, steam rooms , hammams and infrared cabins) with optional relay boxes / steam generators.
- Menu navigation in 20 languages.
- Pin code protected service level for extended settings and fine tuning - allows to adjust the control to suit individual needs.
- Innovative guided setup and numerous smart control functions to make control simple, quick and easy as never before.
- Firmware updates on site possible.
- Additional functions can be added with the optional extension modules (coloured light, sound, remote control, etc.).

Sauna version - for dry and humid sauna operation. Includes relay box, 1 temperature sensor with 5 m cable. Optional: bench sensor, humidity sensor.

Switching capacity: 9 kW (vaporizer max. 3 kW).

Hammam version - for traditional Turkish bath (hammam) operation. 3 heating circuits (floor, bench, walls). Includes relay box, 3 temperature sensors with 5 m cable.

Switching capacity: 3 x 3 kW

For additional extensions and optional connection cables - see pages 45 - 50.

It's unique - control up to 8 cabins from just one display panel!

EOS EmoTouch 3 redefines the meaning of luxury and comfort. Control has never been so easy.

It doesn´t matter if it is a sauna, a steam room, a hammam or an infrared cabin. You can control up to 8 separate cabines from just only one display. With an extension module you can easily add another sauna, another steam room, infrared cabin and so on. Control each cabin individually or switch them all at once.

Emotouch 3 will replace up to 8 separate control units - saving space and money, while offering you the truly luxury class performance and the full range of functions.

More than that - every single cabin can be enhanced with additional control features, for example you can also control music and coloured light effects!

EOS EmoTouch 3 - the digital cockpit of your entire wellness facility!

EXTENSIONS FOR EMOTOUCH 3

LSG Sauna | for EOS EmoTouch 3

LSG Sauna allows to connect an additional sauna cabin and control it from the existing EOS EmoTouch 3 display panel.

Up to 8 separate saunas (and/or steam rooms) may be connected to one display panel.

Includes digital temperature sensor with 5 m cable.

Includes 10 m sauna bus connection cable.

Supports dry and humid sauna operation. 9 kW switching capacity. Up to 3 kW vaporizer output.

| Item no. | Price €
no VAT |
|---|---|
| 94 6640 | 1.516,00 |

CONTROL UNITS

EMOTEC / EMOSTYLE / EMOTOUCH SENSORS

2nd temperature sensor for sauna | Sensorbus

2nd temperature sensor (bench sensor) with beige colour housing and 5 m connection cable. Recommended for large size saunas or cabins with complex layouts. Improves temperature control, allows exact temperature monitoring at the bench level opposite to the heater. RJ10 plug.

Compatible with the following control units: EmoTec- and Emo-Style series, EmoTouch 3

Item no.	Price € no VAT
94 5725	280,00

Humidity sensor for sauna | Sensorbus

Humidity sensor with beige colour housing and 5 m connection cable. For exact humidity control basing on the real relative air humidity in %. RJ10 plug.

Compatible with the following control units: EmoTec H, EmoStyle Hi, EmoTouch 3

Item no.	Price € no VAT
94 5726	448,00

Temperature sensor for sauna | Sensorbus

Digital temperature sensor with overheating limiter fuse, beige colour housing and 5 m connection cable (RJ10 plug).

Compatible with the following control units: EmoTec- and Emo-Style series, EmoTouch 3

Notice: Every EOS control unit already includes a temperature sensor as standard.

Item no.	Price € no VAT
94 5743	280,00

Temperature sensor for steam rooms | Sensorbus

Digital temperature sensor in a stainless steel housing, sensor bus system. Connection cable is **not** included!

Compatible with the following control units:
  • LSG Steam
  • SteamRock II Premium (main sensor only)

Notice: EOS control units or SteamRock Premium generators include one temperature sensor as standard.

Not suitable for EmoTouch 3 Hammam version.

Item no.	Price € no VAT
94 6279	276,00

Optional connection cables

Notice: EmoTouch 3 RB includes 3 sensors in standard delivery.

Sensor housing | anthracite

Sensor housing in anthracite colour. Without sensor board. Suitable for all saunabus sensors of control units from following series EmoTec, EmoStyle and EmoTouch series (see page 46).

Item no.	Price € no VAT
94 6609	34,00

MODULES AND ACCESSORIES

SBM-App module

SBM-App module allows to control a sauna remotely from a smart phone / tablet-PC from any place worldwide (internet access required). Requires the "EOS Spa Control" app on a mobile device.

With the extended EOS Spa Control App, various other cabin types in addition to a sauna cabin, such as steam rooms, hammams and infrared cabins can be conveniently controlled in connection with one SBM-App module each while on the move. A quick check of the current sauna condition like its temperature or remaining heating time is easily possible.

Management of several cabins is also possible. Further features are the different preset profiles for the sauna, which can be customized with just a few clicks. For even more control, the temperature of the bench sensor can be accessed and the status of the drying program for sauna, steam room or hammam can be queried. Moreover, the potential-free contact can be controlled via app and can e. g. regulate an additional light source.

Compact size module with pre-mounted cable for connect- ion to the sauna control unit. RJ45 jack for router connection. With status LEDs for network activity. No separate power supply needed.

Compatible control units: EmoTec D/H, EmoStyle series, Emo-Touch 3 Sauna.

Internet connection required by initial setup and for later control outside home network.

For Android and Apple iOS devices.

Notice: Delivery does not include a smart phone or a tablet-PC.

94 4648	300,00

KNX / Modbus Module

The KNX- / Modbus module allows to integrate your sauna cabin into the central BMS system using the KNX or Modbus communication protocols.

Suitable for Compact DC, HC, D18/H18, EmoTec, EmoStyle and EmoTouch 3 series.

Allows remote control for: sauna heater (also with vaporizer), temperature and humidity, light with dimming, volt-free output switching, monitoring of temperature and humidity, sauna status etc.

Very simple to install. Connection to sauna control unit via sauna bus connector.

Item no.	Price € no VAT
Module SBM-GLT-KNX	
94 7078	1.014,00

Set includes: push button with external electronic unit and connection cable.

Suitable for sauna control units: Compact DC / HC / D18 / H18, EmoTec-, EmoStyle- und EmoTouch 3 series.

Item no.	Price € no VAT
94 6980	268,00

Infrared Receiver with remote controller

Infrared receiver with a wireless remote control for SBM-FL coloured light modules and SBM-S sound modules.

Allows to quickly and conveniently control coloured light and/or music from inside a sauna room (infrared cabin). Control of the coloured light and sound over the control panel remains as before possible.

Set includes: wireless remote control (with battery), 5 m connection cable to the control unit, infrared receiver (black housing) for installation inside sauna (infrared cabin).

Item no.	Price € no VAT
94 6810	332,00

Sensor front plate diameter Ø 35 mm
Mounting sleeve Ø 17 mm
(ca. 18 mm borehole diameter in sauna wall).
Complete length 85 mm (visible 5 mm).

CONTROL UNITS

SBM-IR Module

SBM-IR Module allows to control infrared radiators and heating foils in your sauna. 3 operation modes are possible: only sauna, only infrared or sauna & infrared at once. Functions and features:

- 3 separate, individually controlled outputs: 2 x 1.500 W dimmable and 1 x 500 W switchable
- Up to 5 channels which allow to create individual zones (e.g. front, side, back).
- Outputs can be assigned to individual zones.
- Temperature control range 30 - 70° C. Heating control as per air temperature or as per heating intensity.
- Compatible with all type of IR emitters like regular and quartz glass IR radiators, IR heating foils and panels.
- Up to 3 IR modules can be connected to one sauna control unit - up to 10.5 kW total power possible.

Item no.	Price € no VAT
94 6966	946,00

Dimensions HWD: 270 x 195 x 100 mm
Switching capacity: 3.500 W
Power supply: 230 V 1N ~ 50Hz
Compatible control units: EmoTec-, EmoStyle-, InfraStyle-, EmoTouch 3-series

SBM-IR relay module

The SBM-IR relay module is used as an add-on module for connecting additional IR emitters in an existing sauna or IR cabin. The module is the preferred means of operation for infrared foils in infrared and / or sauna cabins. Emitters may also be connected. The (dimmable) IR module or IR relay box is recommended for emitters.

Wall-mounting installation outside of the cabin.

Functions and features:

- 5 separate circuits with a total output of 3.5 kW, can be freely defined – all non-dimmable
- Heating period limitation: 6 h / 12 h / 18 h / 24 h.
- Outputs can be assigned to individual zones.
- Up to 3 extension modules can be connected to one sauna control unit – the total output may not exceed 10.5 kW.

NEW

Item no.	Price € no VAT
94 7131	910,00

Dimensions HWD: 240 x 230 x 70 mm

Neozed D02 25 A / 400 V	2001 4853	10,00
Neozed D02 35 A / 400 V	2001 4240	12,00

POWER EXTENSION

LSG 10 CA / CW power extension relay box

Relay box for power extension for sauna control units. Provides the additional 10 kW switching capacity.

New, improved construction with wall-mounting "EOS Compact"-housing, connections at the bottom or back side. Low-noise operation.

In combination with a 9 kW (10 kW) sauna control unit suitable for twin-circuit sauna heaters up to 19 kW (20 kW) power (with EOS Compact D18/H18 – up to 28 kW).

Available in anthracite (LSG 10 CA) or white (LSG 10 CW).

NEW

Model	Item no.	Price € no VAT
LSG 10 CA	94 7802	548,00
LSG 10 CW	94 7803	548,00

Dimensions HWD: 220 x 255 x 65 mm
Power supply: 400 V 3N ~ 50 Hz
Switching capacity: 10 kW

LSG 10 ET power extension relay box

As the LSG 10 CA / CW model but with "EOS EmoTec"-housing.

In combination with a 9 kW (10 kW) sauna control unit suitable for twin-circuit sauna heaters up to 19 kW (20 kW) power (with EOS Compact D18/H18 – up to 28 kW).

NEW

Model	Item no.	Price € no VAT
LSG 10 ET	94 7805	568,00

Dimensions HWD: 270 x 190 x 90 mm
Power supply: 400 V 3N ~ 50 Hz
Switching capacity: 10 kW

LSG 18 / 18H contactor box

Contactor box for power extension for sauna control units. Provides the additional 18 kW (18 + 4 kW) switching capacity. With a built-in fuse box.

Wall-mounting housing in EmoTec design, connections at the rear or at the bottom side possible.

In combination with a 9 kW (10 kW) sauna control unit suitable for twin-circuit sauna heaters up to 27 kW (28 kW) power (with EOS Compact D18/H18 – up to 36 kW).

LSG 18: With 1 x 18 kW power output.

LSG 18 H: With 18 kW output for heater and 4 kW output for vaporizer (for commercial Bi-O heaters).

! Notice: Fuse inserts not included in delivery scope!

Model	Item no.	Price € no VAT
LSG 18	94 5730	1.256,00
LSG 18 H	94 5731	1.660,00

Dimensions HWD: 270 x 300 x 100 mm
Power supply: 400 V 3N ~ 50 Hz
Switching capacity: 18 kW
(LSG 18H - 18 kW + 4 kW)

ATTENTION: Requires 3 fuses Neozed D02 type as per connected heater power (see page 50).
Fuses are not included!

LSG 36 / 36H contactor box

Professional grade contactor box for power extension for sauna control units. Provides the additional 36 kW switching capacity.

Professional wall-mounting housing with a built-in fuse box (front side, with a glass window). Connection from all sides.

In combination with a 9 kW (10 kW) sauna control units suitable for twin-circuit sauna heaters up to 45 kW (46 kW) power (with EOS Compact D18/H18 – up to 54 kW).

LSG 36: With 2 x 18 kW output.

LSG 36 H: With 2 x 18 kW output for heater and 4 kW output for vaporizer (for commercial Bi-O heaters).

! Notice: Fuse inserts not included in delivery scope!

Model	Item no.	Price € no VAT
LSG 36	94 4392	2.238,00
LSG 36 H	94 4230	2.324,00

Dimensions HWD: 450 x 300 x 142 mm
Power supply: 400 V 3N ~ 50 Hz
Switching capacity: 2 x 18 kW
(LSG 36H - 2 x 18 kW + 4 kW)

ATTENTION: Requires 6 fuses Neozed D02 type as per connected heater power (see page 50).
Fuses are not included!

SAFETY SYSTEMS

Type 1: Application and in-stallation example on EOS Cubo sauna heater

Type 5: Application and in-stallation example on EOS 34.G sauna heater

Cover protection rail

Automatic cover protection system for sauna heaters with switch-off function. If an object is placed on the cover protection rail (e.g. forgotten towel), the rail will bend down and the heater may not start or the heating will be interrupted. Once the object is removed, operation will be continued automatically.

The system consists of the stainless steel rail (frame), metal housing (anthracite finish) with the integrated switch-off mechanism.

For installation on the sauna wall above the heater. Thanks for five different rail sizes the system fits all EOS heaters. It is easy to install and to connect. By certain floor-standing heaters the system can also mounted directly on the heater using an additional mounting frame.

EOS cover protection rail is an **approved**, **norm compliant** safety solution (as per EU 60335-2-53). It may be used by sauna cabins with remote switching or remote operation and reduces the risk, that a sauna heater may be switched on in unsafe condition (e.g. towel on the heater).

The cover protection rail is highly recommended as a safety solution for instance by the use of an "EOS app module" for remote sauna operation from smart phones / tablets.

Compatible with all EOS control units and almost all sauna heaters.

EOSafe L: Application and in-stallation example - reflector on Goliath sauna heater

EOSafe safety solution for sauna

EOSafe is an innovative safety solution for sauna cabins.

EOSafe L – for supervision of the sauna heater through a light barrier solution with an emitter/receiver on the ceiling and a 27 or 52 mm reflector mounted on the heater. Set includes control unit, emitter/receiver unit, reflector and cables. For the EOSafe L safety system with 27 mm reflector for the sauna heaters EOS Organic W and Bi-O Organic W - see pages 8 and 27.

EOSafe D – safety solution based on door supervision. The system is able to detect an unauthorized opening of the door and through this ensure due safety. Set includes control unit, RFID device (for glass doors) with 5 m or 20 m cable, and authorization tag.

The EOSafe is also available as a combination of the "L" and "D" solutions with one cental controller.

Power supply: 230 V 1N ~

Compatible with the following control units:

- Econ D4, H4
- Compact series
- EmoTec series
- EmoStyle series
- EmoTouch 3 Sauna

Connection to sauna control units through "sauna bus" system.

Note: by EOSafe L version please check the compatibility with a specific EOS sauna heater in advance.

Emergency button

94 5777

94 5779

Emergency "off" button for sauna cabins. With two separate switching circuits (1 x normally open, 1 x normally closed). Extra-long housing for easy installation, with threaded mounting.

Two circuits allow to release two separate actions (e.g. heater off and sound alarm) when the button is engaged.

Available separately or as as set with beech wood cover plate and installation kit.

Cover place size HWD: 70 x 70 x 12 mm

Installation depth of the button: 85 mm

Connection: two contact pairs (crimped wires)

Item no.	Price € no VAT
Emergency button with cover plate

Emergency button, no cover plate	
94 5779	338,00

HYGIENE SYSTEMS

EOS UV-Clean

Air disinfection unit for installation in the air supply area e. g. of a sauna or infrared cabin.

EOS UV-Clean cleans the supply air of the sauna from various infectious strains (e.g. viruses, germs and bacteria, as well as other aerosols). The outside air is drawn in by integrated fans and purified by means of the highly effective UV-C light before the air flows into the cabin. The air speeds can beset with a switch depending on the size of the sauna cabin. The radiation is prevented from escapingdue to the special internal construction and at the same time the air is guided in a targeted manner.

It is designed for vertical installation on the outer wall of the cabin. The connection cable supplied allows it to be operated directly via a power socket. However, this socket should be coupled with the sauna control unit control unit so that the fans do not continue to run when the heater stops working.

EOS UV-Clean is only suitable for indoor use e. g. in sauna cabins. The cabin must be planned and set up according to the specifications before the EOS UV-Clean can be installed. The corresponding air supply section of the sauna cabin is covered by the air supply duct.

Power supply voltage: 220 - 240 V
Housing: Chrome steel, anthracite powder-coated
Dimensions (H x W x D) without duct: 600 x 500 x 150 mm
Dimensions (H x W x D) with duct: 910 x 500 x 150 mm
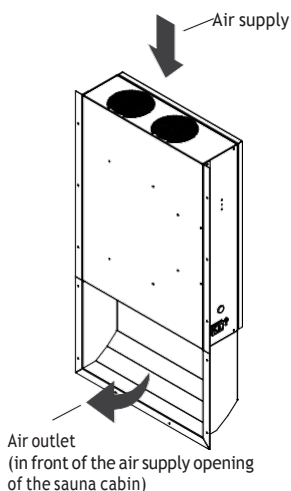

Item no.	Price € no VAT

larly recommended with Himalaya salt rocks.

INFRARED SYSTEMS

EOS EmoTec IR

Digital control panel for infrared cabins. For residential and commercial use.

Emotec IR is based on the proven construction of EmoTec D control unit for sauna (page 41).

Functions and features:

- Temperature control range 30 - 70 ˚C
- Heating control as per air temperature or heat intensity.
- 3 separate outputs: 2 x 1500 W dimmable, 500 W switchable.
- Up to 5 channels - allows to create individual zones or heating groups (e.g. back, front, side, etc.).
- Supports all types or IR emitters and heating foils.
- Total power output can be increased to 10.5 kW with extension modules SBM-IR.
- Numerous functions as in Emotec D sauna control unit.
- Includes temperature sensor with 5 m cable.

Item no.	Price € no VAT
EOS EmoTec IR anthracite / silver	
94 7044	2.146,00
EOS EmoTec IR white / silver	
94 7045	2.146,00

Display panel HWD: 127 x 130 x 25 mm
Relay box HWD: 240 x 230 x 70 mm
Switching capacity: 3,5 kW
Power supply: 230 V 1N ~ 50 Hz

Accessories
Optional extra-long cables for display panel, sensors and extension modules - see pages 46 - 50.

EOS InfraStyle

Digital luxury-class control panel for infrared cabins. For residential and commercial use.

InfraStyle is based on the proven construction of EmoStyle control unit for sauna (page 42).

Luxurious display panel with glass front and capacitive buttons. Available in black or white design.

Functions and features as EmoTec IR model.

Accessories
Optional extra-long cables for display panel, sensors and extension modules - see pages 46 - 50.

Item no.	Price € no VAT
EOS InfraStyle, black design	
94 7046	2.484,00

Switching capacity: 3,5 kW
Power supply: 230 V 1N ~ 50 Hz

EOS InfraStyle "i", installation inside IR cabin

Digital luxury-class control panel for infrared cabins. For residential and commercial use.

Like InfraStyle, but with the display panel for installation inside infrared cabin. Flush-mounted installation.

Luxurious display panel with glass front and natural wood inlay of acer or walnut, capacitive buttons.

TFT colour display with menu navigation in 19 languages. Simple and fast operation thanks to capacitive buttons.

Available in four designs:

- Black or white glass panel
- Wooden inlay made of natural acer or walnut wood.

Accessories
Optional extra-long cables for display panel, sensors and extension modules - see pages 46 - 50.

INFRARED SYSTEMS

EOS InfraTec Classic

Electronic control unit for infrared warming cabins.

Illuminated alphanumeric LCD-Display (time, functions, error messages). Temperature control range 30 °C - 70 °C. Variable heating time 1 - 99 min. Switch for cabin light. Integrated main on/off switch. Flush-mounting installation.

Delivery includes temperature sensor with 3 m cable.

Available with the pre-mounted cable set: pre-mounted power supply mains cable with plug, 3-core cable for cabin light and connection cable for IR radiators. Alternatively also available without cable set (only controller and sensor).

The max. switching capacity 3.5 kW may be extended with an optional power extension modules (e.g. L09R relay box).

Item no.	Price € no VAT
Infratec Classic without cable set	
94 4388	526,00
Infratec Classic with cable set

Switching capacity: 3500 W, extendable
Power supply: 230 V N ~ 50 Hz
Dimensions HWD: 139 x 194 x 49 mm

EOS Econ I1

Electronic control unit for infrared warming cabins. Optimal for large commercial infrared cabins.

Illuminated alphanumeric LCD-Display (time, functions, error messages), temperature control range 30 °C - 70 °C. Menu navigation in 12 languages. Heating time limitation 6 h (1 minute step), keypad lock, switch for cabin light.

Slim housing for wall-mounting or semi-recessed installation. Temperature sensor with 2 m cable is included.

Switching capacity up to 9 kW

Item no.	Price € no VAT
94 5768	650,00

Power supply: 400 V 3N ~ 50 Hz
Switching capacity: 9,0 kW
Dimensions HWD: 220 x 250 x 67 mm
Colour: cream-white

EOS InfraTec Premium

Electronic control unit for infrared warming cabins.

Compact size flush-mounting display panel and a separate relay box.

Illuminated alphanumeric LCD-Display (time, functions, error messages), multi-language menu navigation.

- Temperature control range 30 - 70 °C
- Heating control as per air temperature or heat intensity.
- 3 outputs: 2 x 1500 W dimmable, 500 W switchable.
- Cabin light control (230 V output).
- Supports all types or IR emitters and heating foils.
- Optional temperature sensor for heating foils control.

Temperature sensor with cable and 2 m display connection cable are included. **Switching capacity up to 3.5 kW**

InfraSky 3000 infrared warming system | Ceiling-mounted

Designer infrared warming system for mounting on ceilings.

Suitable for domestic and commercial use. Ideal e.g. as source of soft warming over lounger chairs or in relaxation zones. Thanks to the mounting on the ceiling InfraSky system does not restrict the freedom of movement and helps the keep the installation area spacious and unblocked.

InfraSky 3000 features 6 high performance 500 W Vitae quartz glass emitters placed in an elegantly shaped sleek design housing with black finish.

Control unit is not included. By installation an inrush current limiter should be provided. For ceiling mounting please refer to the choice of suspension systems shown on page 50.

STEAM ROOM EQUIPMENT

EOS SteamAttrac

Affordable steam generator for steam rooms and humid saunas. Recommended for residential use.

Operation based on heating elements. Compact size housing for wall-mounting installation.

- Water tank made of reinforced 1.5 mm stainless steel.
- Robust stainless-steel outer housing with anthracite finish.
- Maintenance-friendly design - easy access to all parts.

- Wall mounting installation
- Steam output 1", right hand side (outer thread).
- Water connection 3/4", bottom (outer thread).
- Drain 1", right hand side (automatic discharge).
- Input for discaler liquid on the upper side 1/2" nozzle
- High-performance heating elements mounted on special blocks with thread connection.
- Dry-run protection with reset function.

Without control unit. Requires an external control unit - e.g. Econ S2 or LSG Steam for EmoTouch 3.

Water softening system **AKE 120** (ion-exchange, runs on salt), 230 V 1N, 1" input/output, max. 120 m^3 1°dH, 125x32x52 cm (HWD)	94 6818	2.934,00

⚠ Note: Obligatory by commercial use of the steam generator!

Special technical solutions possible upon request, e.g. for use on ships.

EOS SteamRock II Basic

High-performance steam generator for steam rooms. Ideal for private and commercial use.

Robust, durable construction with quality heating elements. Very fast steam production, high efficiency. Flexible installation thanks to variable steam outlet.

Water tank made entirely of stainless steel, separately replaceable heating elements. Fully automatic operation with overheating protection. Integrated automatic descaling system (cleaning and descaling).

Delivery includes a 5 l container with level probe for descaler liquid.

Without control unit. Suitable control unit - e.g. LSG Steam for Emotouch 3, Econ S2.

The power output may be quickly adjusted on site - from 18 kW to 3 kW in 3 kW steps.

Power	Item no.	Price € no VAT
3 / 6 / 9 kW	94 7649	9.544,00
12 / 15 / 18 kW	94 7650	11.228,00

Power supply: 400 V 3N ~

Size HWD: 670 x 460 x 350 mm

Notice: special liquid cleaner is required for operation. Not included in delivery scope. Please refer to accessories.

Special technical solutions possible upon request, e.g. for use on ships.

EOS SteamRock II Premium

Luxury class steam generator with high-performance quality heating elements for steam rooms. Ideal for particularly demanding use.

Built-in descaling and automatic cleaning sytem.

- **Includes luxury EmoTouch 3 control system** with a separate 7" colour touch screen display panel (5 m cable included).
- Full range of settings and functions. Including extended setup, special tuning and the possibility to connect various extension modules , e. g. coloured light, sound, remote start, etc.
- **Built-in essence dosing system** for two fragrances.
- Volt-free outputs for bench and floor heating.
- 230 V outputs for 2 fans and cabin lighting.
- Power outputs or two fans and light (dimmable).
- Flexible installation thanks to variable, extra-large 1 1/4 "steam outlet for efficient operation.
- Temperature sensor with 5 m cable included in delivery.
- Optional 5 l essence container with level probe (Item no. 94 6298).

EmoTouch 3 display panel allows to control up to 7 additional saunas or steam rooms (requires additional extension modules or steam generators).

Power supply: 400 V 3N ~

Size HWD: 670 x 460 x 350 mm

Notice: special liquid cleaner is required for operation. Not included in delivery scope. Please refer to accessories.

*NC models - without display panel, for connection to an existing already EmoTouch 3 control panel. For control of several cabins from one display panel.

EOS Econ S2 | control unit for SteamRock II Basic and SteamAttrac

Electronic control unit for SteamRock Basic and SteamAttrac steam generators.

Large multi-line LCD display with all parameters at a glance., menu navigation in 12 languages, guided setup.

Features and functions:

- Temperature control 30 - 50°C,
- Hysteresis adjustable 1 - 5 K,
- Heating time limitation 6 h / 12 h / unlimited,
- Output for light and ventilation fan (230 V),
- Timer (24h single event or automatic recurring switching),
- Control for essence dosing (intensity and intervals),
- Error messages,
- Numerous special functions.

Wall-mounting installation. Temperature sensor with 5 m cable included in delivery.

Disc valve, stainless steel	2001 5210	182,00

STEAM ROOM EQUIPMENT

COLOURED LIGHT

EOS LED strips

LED light strips - new improved construction. Slim 6-pin connectors on both ends for a chain-type connection. With 3 mounting holes for quick installation on any flat surface. Available as RGB coloured light type and as white light type.

Three basic colours, mixed colours possible (RGB type). Dimmable (voltage based). Not usable for humid sauna (Take a look at LED light strips for steam rooms, page 72).

24 V — voltage, power output 3.6 - 4 W. Size LWH 495 x 15 x 5 mm. Optional flexible connection cables facilitate flexible light chains in various lengths.

Advantages and benefits:

- Very high heat resistance up to 110°C - may be installed at the sauna ceiling without special heat protection.
- Every single LED with individual overheating protection, automatic brightness reduction by too high heat.
- Exceptionally high light output - up to 160 lumen per watt.
- Very energy saving LEDs - only approx. 3.6 to 4 W power consumption per strip.
- Chains up to 12 pcs (single side power supply) or 24 pcs (dual side power supply) possible.
- Very simple and quick installation thanks to mounting holes and slim connectors.
- Original „Made in Germany" quality from EOS.

May be used for instance with white light LED strips.

COLOURED LIGHT SYSTEM

COLOURED LIGHT

EOS LED Strip SR | LED strips for steam rooms

IP65

LED light strips - special version designed for steam rooms.

The strips are fitted in a robust U-shape aluminium profile and protected against humidity. Each strip still allows simple and quick mounting thanks to the pre-drilled mounting holes.

5 m connection cable with a 6-pin connector included. Cable extension is possible.

Available as RGB coloured light type and as white light type (warm white 3000K).

Dimmable (voltage based). 24 V ⎓ voltage.

IP65

Advantages and benefits:
• Very high heat resistance up to max. 70 ˚C.
• Every LED with individual overheating protection, automatic brightness reduction by overheating.
• Very high light output - up to 160 lumen per watt.
• Full humidity protection (IP65), high mechanical protection thank to the robust aluminium profile.
• Very compact, slim size - only 20 x 9 mm.
• Very simple and quick installation thanks to mounting holes and pre-mounted 5 m cable.
• Original „Made in Germany" quality from EOS.

COLOURED LIGHT SYSTEM

ESSENCE DOSING SYSTEMS

AromaTec II Basic | automatic dosing and water splash system for sauna

Dosing system for automatic water splashes for sauna cabins.

Built-in digital control unit with LCD display.

Functions: dosing delay, water quantity adjustment, intensity, cycle time.

Completely pre-mounted on robust metal chassis, incl. cover panel.

With built-in dosing pump and console for essence container.

Dosing performance - up to 5 l/min.

Protection class IP44.

Item no.	Price € no VAT
94 6798	5.058,00

Power supply: 230 V 1N ~ 50Hz
Dimensions (HWD): 570 x 710 x 240 mm
Water connection: 1/2" inner thread
Water output: 3/8" inner thread
Power rating: 50 W

Optional Accessories (page 76):
- 94 5192 Wall-through feed tube
- 94 5191 Sprinkler head

AromaTec II | automatic dosing and water splash system for sauna

New generation dosing system for automatic water infusions for sauna cabins.
With built-in colour 3,2" touch screen control unit with numerous functions and features (week timer, password protected access, special programs, etc.)
Pre-mounted on a robust metal chassis with plastic housing. Integrated peristaltic pump(s).
The system may be switched from the built-in control unit, from an external push-button or a timer. Control unit allows to quickly set cycles, quantity and dosing intensity. Automatic 30 min dosing start delay after the heating start. With 230 V output for infusion event display. Delay time for infusion display adjustable.
Dosing capacity: water 50 - 600 ml / essence 0 - 9 ml.

Available with essence dosing for 1 fragrance, for 2 fragrances and for 3 fragrances.

Optional system divider 1/2" available on request.

Version	Item no.	Price € no VAT
1 fragrance	94 6242	6.160,00
2 fragrances	94 6243	7.044,00
3 fragrances	94 6244	7.894,00

Power supply: 230 V 1N ~ 50Hz
Dimensions (HWD): 700 x 400 x 230 mm

Optional Accessories (page 76):
- 94 5192 wall-through feed
- 94 5191 sprinkler head
- 94 5193 Timer (price on request)

AquaDisp | automatic water splash system for sauna

Automatic water splash system for saunas. Water splash can effect automatically at pre-set intervals or manually with an optional push-button.

Recommended for instance for hidden heaters.

With dosing valve in stainless steel housing, electronic control unit, dosing hose for connection to a sauna heater.

Push button with cover plate optionally available.

Notice: without essence dosing.

For control units: Econ D4/H4, Compact DC/HC, EmoTec, EmoStyle, EmoTouch 3 (Sauna) series.

For control units Econ D1-D3 and H1-H3 an additional power adaptor 947166 is required.

IMPORTANT NOTES

Order acceptance is carried out exclusively on the basis of our general terms and conditions of purchase, delivery is carried out exclusively on the basis of our general terms and conditions of sale, which both can be found at www.eos-sauna.com/agb.

This price list is valid from the 10th of May 2022 and will lose its validity once a new price list is issued. The prices valid on the day of delivery will be used for invoicing. Once this price list becomes valid, all previous price lists will lose their validity.

No liability for print errors, technical changes without prior notice are reserved. Changes by product specifications are reserved.

The export to and operation in the USA or Canada are not permitted. By violation of this stipulation EOS shall not be held liable by any claims. We expressly advise that in such case high liability risk arise for the exporter and / or operator.

For subsequent amendments of already packed and prepared for delivery orders a handling fee of 100 € will be charged.

For forwarding to third parties a handling fee of 5% will be charged if the order net value is below 300 €.

By customized wiring of the electric appliances an individually calculated surcharge will be invoiced.

The minimum value of a purchase order is 20,00 €.

A 5,00 € surcharge will be applied by:

- small orders / small quantities below 50,00 € net goods value,

- Individual dispatch or parcel service dispatch of sauna heaters (please refer to the special notes by the respective sauna heaters).
